

# IC 406 FGI

2-WAY IN-CEILING SPEAKER

## ALL NEW PURE WHITE GRILLE

Redesigned magnetic, paintable grille with a new, more natural white color blends more seamlessly into the most premium of interior décor.

## PREMIUM ACOUSTIC TECHNOLOGY

The 6.5" woven synthetic fiber woofer and 1" titanium dome pivot tweeter provide balanced, dynamic, rich sound for your music and movies by utilizing core Jamo technologies:

- Decoupled Tweeter Technology (DTT) minimizes vibration transfer from the baffle to the tweeter, for detailed, clear high frequencies.
- WaveGuide provides focused, dynamic transfer of high frequencies into the listening space.
- Hard Conical Cone (HCC) minimizes woofer breakup for punchy, clear low frequencies.
- Centre Plug replaces traditional dust cap for cooler voice coil and higher power handling.

## PIVOT TWEETER

Aim the tweeter towards the listening space for maximum placement flexibility without sacrificing dynamic, detailed, on-axis high frequencies.

## TWEETER ATTENUATION SWITCH

Cut high frequencies on the fly with the three-way attenuation switch (0, -3dB, -6dB) to custom tune the speaker to the listening space for smooth, detailed sound in any environment.

## IMPEDANCE SELECTOR SWITCH

Custom tailor the speaker's impedance (4 ohm / 8 ohm) with the flip of a switch to optimize it to your amplifier or system.
