AZURE v.2 series

The taste of Côte d'Azur - redefined!

Azure F-100 v.2

You are of course familiar with the French Riviera, which stretches over a hundred kilometers of coastline where the beautiful colored Mediterranean Sea closes in around amazing cliffs, sandy beaches and exquisite resorts.

We named our speakers series "AZURE" to emphasize their sound character, which is like sea's breeze powerful and gentle at the same time, and gives the joy of listening like watching azure color of the Mediterranean Sea.

And the design of the new AZURE v.2 series is elegant, awesome and stylish, so there is no doubt that our speakers can shine like stars in the backdrop of famous and luxurious resorts of the French Riviera.

TLIE (Taga Low Interference Enclosure) – new elegant enclosures are now even more rigid and neutral to vibrations and colorization. We have increased MDF walls thickness from 12mm to 15mm in a floorstanding speaker (plus 18mm thick front panel) and from 9mm to 12mm in Center and Surround speakers (plus 15mm front panel).

New configuration of the drivers: tweeters are positioned closer to the midrange to provide even better smoothness and integration between high and mid frequencies. The bass drivers in the floorstanding model were moved a little up in order to change bass definition and its dispersion.

The dramatically upgraded crossovers to meet new refinements and configuration of the drivers: more delicate and rich treble, better defined midrange and more dynamic bass.

The new AZURE v.2 series is dedicated for very demanding hi-fi and home-theatre enthusiasts, who look for the best sound performance as well as love to enjoy sound without missing any single tune of melody!

High-performance midrange and bass / midrange drivers incorporating **TDSC (Taga Dynamic Surround Control)**, which provides stable cone movement, dynamics and precision and increased system sensitivity. The cones are made of durable and stiff polypropylene.

New decorative pure aluminum trim rings to enhance sound dispersion.

The 2nd generation **TPTTD-I (Taga Pure Titanium Tweeter Dome)** tweeter utilizes a differently shaped and lighter titanium cone as well as a double-magnet structure – it has a higher SPL, faster and more accurate movement of the dome reflecting in more detailed and airy sound.

The **TPAF (Taga Pure Aluminum Faceplate)** helps further dispersion of high-frequencies. Dome metal grill assists with equal and flat dispersion of sound in and off the axis of the driver.

Azure OW-80 LCRS

Elegant and discreet with great sound!

Based on the Azure v.2 technology the Azure OW-80 LCRS is designed to work in front (left and right), center or surround channels in multi-channel theatre systems.

The speaker is ready for on-wall installations in both vertical and horizontal orientation or can be discreetly placed into custom-built cabinetry.

Easy and secure installation thanks to 4 built-in wall mounts. Slim and non-intrusive design - just 15 cm deep.

The AZURE OW-80 LCRS speaker is dedicated for very demanding home-theatre enthusiasts, who look for the best sound performance and for those who appreciate simplicity and discretion.
